101st REGIMENT, 500 STRONG, WILL PARADE AT FAIR

Edmonton Boys Who Have Enlisted for the War Will Be Reviewed in Front of the Grand Stand at Exhibition Tonight—May Be Last Public Appearance Before Contingent Leaves for East—Prize Winning Cattle Were on View This Afternoon.

Today is review day at the Exhibition. With fine weather today, although not a holiday, should be one of the best days of the fair week. There was a large attendance this afternoon, when some special attractions were provided. At three o'clock there was a parade of all the prize winning stock in front of the grand stand. The parade gave many visitors their first idea of the excellence of the live stock exhibits, especially in the cattle section, and showed conclusively the important place that Alberta is destined to play in the live stock industry of Canada.

The dog pavilion was again a great center of attraction and a large crowd followed with keen interest the placing of rival dogs by the judges.

Tonight the 101st Regiment will be the guest of the Exhibition Association and will parade in front of the grand stand 500 strong. The regiment has been mobilized for active service and as the men are liable to receive marching orders at any time this will probably be their last public appearance before they leave. The regiment has just completed its full equipment, including the new latest pattern Ross rifles, and their appearance on the parade ground is certain to arouse enthusiasm.

Saturday is Children's Day and children under 12 years of age will be admitted free to the grounds and grand stand both afternoon and evening. The whole of the grand stand attractions will be put on both afternoon and evening, except that the fireworks display, of course, will only be given at the evening performance.

The weather on the whole has been more than ordinarily favorable to the exhibition and the prospects are that the good weather will continue for the rest of the week, but whether it be fair or rainy the attractions will all take place just the same. The stock pavilion is well suited to staging every feature of the program and in case of rain it would be staged there. Here the people would see the show even better than from the grand stand.

The vaudeville attractions of the exhibition are a strong feature this year and hold the attention of the grand stand audience both afternoon and evening. Each number is rather above the average in point of amusement. Perhaps the most unusual number is that of Germany's aerial dogs and cats, who perform feats of clever antics on slack rope, hoops, barrels, etc. The presence of trained cats on the stage is a departure from the ordinary. The real fun of the bill is supplied by Klein and Erlanger who stage a most eccentric act, combining all sorts of foolish stunts that are bound to amuse both young and old. The pair are also clever in their acrobatic acts. The Larso troupe of trapeze performers are a high-class act of this kind and provide the thrills and difficult stunts. The Colonial troupe of novelty European acrobats are also a headliner and excel in the building of human pyramids and tumbling feats. Captain Treat's seals can play musical instruments, juggle balls, toss fire brands, equally as well as they can do stunts of balancing that would put to shame many a human in the same line of endeavor. The big headliner of the grand stand performance is the folk dance and group of local school children under the direction of Miss May Hall James. (Other Fair News on Pages 2, 3, 6, and 7.)

Summary of Latest War News

Evidence of a sharp sea fight in Chinese waters was brought to Hong Kong when two battered warships, Chinese or British, arrived there with many wounded. The telegram, apparently censored, did not identify the warships, but said they were reported to have been in action with the German cruisers, Scheerhorn and Goeben.

A London report says the captain of a Danish steamer declares he passed seven sunken German ships on the east coast of England. He could not identify them, but believed they were warships. The reported capture of the German cruisers, Goeben and Breslau, by Turkey has been made the occasion of action by the British, French, Belgian and Russian allies, who ask that Turkey's intentions as a neutral be given up. Germany cannot afford the purchase of the cruisers, which she considers will upset the equilibrium of power in the Levant.

It is reported from St. Petersburg to have mobilized 5,500 men, 200,000 of whom are on the German and Austrian frontiers. Today all is reported quiet along the frontier, according to official statements from France and Belgium.

Belgian accounts of yesterday's valiant encounter known as the battle of Herten give the total German casualties as high as 2,000 killed and wounded. The German losses were the number as 30,000, due to an error in transmission. No German report of the engagement has come to hand.

The Belgian staff believes the German movement at Herten was an attempt to reach Brussels, which is stated to be in no danger.

French official reports say the Belgians captured 2,000 German prisoners at Liege and the French have taken 1,500 along the frontier. The Belgian Government has requested France to provide places of internment for prisoners owing to lack of room in Belgium.

Aviators are taking a very prominent part in scouting for the armies in the field and are suffering severely according to the reports. Belgian authorities report destruction of three German aeroplanes and the death of two of their pilots, while French reports recount the narrow escape of a French aerial scout from a German fighter machine.

German strategy appears to be to penetrate into Belgium, trusting to silence the dangerous Liege forts before the necessity arises of bringing up supplies, heavy artillery, which otherwise will find transportation extremely difficult, if not impossible, along the route. The best and safest route would perhaps be to wait until Liege is reduced before entering Belgium in a full scale, but time is now the all important factor. Germany cannot afford to wait. Consequently the bulk of the Kaiser's invading army, made up of 25 army corps and eight divisions of cavalry, numbering approximately 1,250,000 men, already is moving through Ardennes.

Late Markets

Winnipeg Wheat.
Winnipeg, Aug. 14.—The first two cars of new wheat were inspected yesterday, and the results were as follows: They were shipped from Lethbridge and are four days earlier than last year. Out of lower grade than 3 C.W. are now released by government, as these not being needed. Trading was quiet and all grain prices generally weaker. Hedging sales on the new crops have been going on for the last two days, indicating that elevator companies are now buying wheat in the west. The cash demand for wheat of contract grades continues good, but offerings are few on the market; other grains are slow.

Liverpool cash wheat was one penny to three pence lower and American wheat also weaker.

Later at the close wheat and flax were decidedly weak. Wheat lost for the day 3/4 cent and flax 4/4 to 5/4. Winnipeg wheat opened 9/4 to 1 1/4 lower, and closed 9/4 to 1 1/4 lower. Liverpool cash wheat was one penny to three pence lower and American wheat also weaker.

Minneapolis opened unchanged to 3/4 cent lower and closed 1 1/4 to 1 1/2 lower. Chicago opened 3/4 to 1 1/4 lower, and closed 1 1/4 to 2c lower.

The weather map shows cool all over the west, with a cold front touching at Swan River, and light rain at Edmonton was recorded. Weather forecast: Fair with a little higher; other grains to fall and Saturday.

London, Aug. 14.—(5 p.m.)—About 150 of the passengers and crew of the Austrian Lloyd steamer Baron Gautsch were killed or drowned when the vessel was blown up today by a mine off the island of Lussin on the Dalmatian coast, according to a Reuter despatch from Trieste. She carried about 300 passengers and a crew, of whom about 150 were rescued.

No Forts Surrendered, It Is Stated.
Brussels (via Paris)—Aug. 14.—(1:55 p.m.)—It was officially announced here today that none of the Liege forts had capitulated as had been stated in German reports. It was declared that the defenders had been instructed to blow up the forts rather than surrender. A rumor that an attempt had been made on the life of King Albert was based on a slight accident to the royal automobile.

Brussels (via Paris) Aug. 14.—(1:55 p.m.)—Technical observers of the military operations of the last two days declare their opinion is confirmed that the German army is seeking to reach the French border through the southern part of the Belgian province of Brabant, crossing that section where the plains of Waterloo are situated and forcing the Belgian army to retreat upon Antwerp. BULLETIN—Paris, Aug. 14.—The Havas agency announces that Field Marshal Sir John French, the commander-in-chief of the English field army, joined General Joseph Joffre, the French commander-in-chief, at headquarters today. The locality is not mentioned.

French Artillery Superior to German.
London, Aug. 14.—The Daily Chronicle says: "According to the latest information received the engagements of the last few days have proved conclusively the superiority of the French to the German artillery. The three guns captured on Tuesday had been deserted by gunners owing to the merciless fire of the French 75-millimetre field guns."

"Experts have long been aware that no field artillery in Europe could compare with that of France. They urged, however, that France was seriously deficient in heavy guns, but so far the German heavy artillery has failed to produce any important effect on the French troops."

French Troops Successful in Vosges.
London, Aug. 14.—(4 p.m.)—The official press bureau of the British war office and admiralty today issued news of a French success in the Vosges mountains, Alsace, in the following words:

"After a successful resistance lasting five days at the passes of Sainte Marie Aux Mines and Le Bonhomme, the French troops occupied the region of the Saale pass which commands the valley of the Bruche, an affluent of the Rhine. At Saale numbers of desertions of German troops are reported. The French have taken many prisoners and captured some machine guns."

North Sea Only Unsafe Route.
London, Aug. 14.—The assurance officially given that the North sea is the only route unsafe for trading vessels, had a steady effect on food prices here. A prominent Canadian shipping official expressed the conviction today that so far as the Atlantic is concerned the risk to British shipping has been reduced to a minimum and there was no reason why trade between Canadian and British ports should not return almost to normal. The great difficulty in this, of course, is the lack of ships owing to so many liners being taken by the government. Several Canadians have been informed that the first available berths are by ships intending to sail west in October.

Edmonton Girl for Red Cross.

LE BELGIAN ARMY AGAIN DRIVES BACK INVADEES WHO LOSE THREE THOUSAND MEN

Allies are Now Being Steadily Reinforced and Push Ahead Resolutely—Kaiser Drives His Forces on Without Scruple and Loses Them in Thousands—Brussels no Longer in Danger—Russia Can Put 5,500,000 Men in the Big Fight—France Makes Gains and Takes Many Prisoners in Vosges Mountains.

(Capital Leased Wire.)

Brussels—(via Paris) Aug. 14.—(12:25 a.m.)—The German casualties in the engagement at Haelen Wednesday were 3,000 dead and wounded. The Germans apparently sacrificed their men without any scruples. During the fight the Germans were obliged to pass two bridges over the Gethe and Velpe rivers, where they were exposed to a heavy fire. The retreating Germans left piles of dead and wounded at these bridges. The same carnage occurred on the road from Threck to Haelen, where the German cavalry, exposed to the galling guns of the Belgians, fell in droves.

The German infantry and cavalry had a similar reception near Colfaek.

The success of the Belgian army is considered particularly important here, as most of the Belgian troops participating had not been under fire before.

The Belgian casualties at Haelen were light in dead as the troops were well entrenched, but many were wounded. The situation, which was somewhat critical Tuesday morning when the German patrols had arrived close to Brussels, was held to be rapidly improving from the standpoint of Belgians four hours later.

The victory described above was followed by new and successful engagements near Noville, Tavieres and Eghezee, about nine miles north of Namur on Wednesday and Thursday. These operations proved that the Germans are retreating further and that the allies being steadily reinforced are resolutely pushing ahead.

Brussels is no longer in danger, but the situation a few days ago was such that the eventuality of its occupation by the Germans was considered.

Nearly Six Million Russians in Field.

London, Aug. 14.—A despatch to the Central News from Rome says that, according to reliable information from St. Petersburg, Russia has mobilized 2,000,000 men on the German and Austrian frontiers and half a million on the Turkish and Rumanian frontiers, while 3,000,000 men are held in reserve.

German Division Surrenders to French.

London, Aug. 14.—(10:45 a.m.)—The Paris correspondent of the Exchange Telegraph company telegraphs an official statement issued by the minister of war at the French capital at midnight.

Referring to the fight on the Vosges Mountains he said: "The French troops held their positions on the mountains for five days despite vigorous attacks of the Germans, who were superior in number. At one point the Germans brought beside their weakened formations their reserves but the latter were unable to resist the French attack and were obliged to lay down their arms. The entire division surrendered. The French troops hold the valley of the Bruche."

Sergeant Major MacDonald has gone forward with the first detachment in the capacity of sergeant major.

Captain McKinnery announced today that a complete signalling corps and a bugle band of five bugles, have been secured. A machine gun section, well formed and there are only two vacancies.

A splendid spirit is being shown by the non-enlisting young men who could not wait until their business in order to leave today will proceed to Ottawa at their own expense.

The full strength of the Patricia's will be 1,600 men. The Edmonton contingent will comprise one-fifth of the regiment.

A full list of the men enrolled up to Wednesday night, with details of previous service, age, rank of discharge, and address of nearest relatives of each man, has been forwarded to Ottawa. Each man dispatched Wednesday night has his card of identification in case he should not return.

GERMANS EVIDENTLY NOT ANXIOUS MEET BRITISH ON THE SEA

Halifax, Aug. 14.—For half an hour Thursday night H.M.S. Bristol, the smallest British warship in the North Atlantic, fought a lone race duel with the Karlsruhe, the largest of the Kaiser's warships, trying to intercept shipping on the Atlantic. Fighting from H.M.S. Suffolk, which interrupted the Karlsruhe's coaling from steamer Krompfort Wilhelm, the German cruiser was intercepted by the Bristol south-west of Bermuda, and for a half hour a long range running fight took place in the darkness of the semi-transparent night. The ships exchanged broadside, owing to superior speed, and after half an hour was out of range of the British vessel's six-inch gun-chaser. All through the night the chase lasted, but somewhere in the darkness the German doubled and made off south to St. John, where he put in for coal, some days ago.

A fleet of British cruisers is now on the way to intercept the Karlsruhe, guarding the trade routes. They are mainly ships of the Drake class, of about 15,000 tons displacement, mounting a main battery of 82 guns, with a heavy secondary six-inch battery. One of these ships, the Good Hope, will be at Halifax tomorrow.

Watch Pacific Entrance.

Seattle, Aug. 14.—The Canadian yacht Aquila fitted with small guns, and the Canadian fisheries cruiser, Galano, are doing patrol duty off Cape Flattery, watching for German merchant vessels, according to reports brought by incoming steamers. The two vessels carefully investigate all incoming and outgoing craft to determine their nationality.

German Repulsed at Namur.

Brussels, Aug. 14.—A Belgian official communication says that a German force of 10,000 men in the direction of Echeneze in the north of Namur was attacked and repulsed this morning by the Belgian troops. The Germans suffered severe casualties. The Belgians captured a number of machine guns mounted on motor cars.

What for England.

Galveston, Tex., Aug. 14.—The British steamer Ramsey, carrying 10,000 bushels of wheat sailed yesterday for Liverpool.

London, Aug. 14.—(2:20 a.m.)—A despatch to the Chronicle from West Hartlepool says that the captain of the Danish steamer Huldmarer, declares that he passed seven German ships 18 miles off Spurnhead, at the northeast entrance to the Humber. Only the masts of the vessels were visible above the water, but the captain believes they were German men-of-war.

At this time, when nations are engaged in strife and men are leaving day by day, it is the duty of every one of us, not responding to the call to arms, to place ourselves on the line of battle at home and do our part in feeding and caring for those who are doing the fighting.

SECOND DETACHMENT PATRICIA'S LEAVE.
The second detachment of the Patricia's Light Infantry left Edmonton last night for Ottawa. The men numbered 116 and were in charge of Sergeant F. H. Althouse, with the detachment which left on Wednesday night, 254 men. The Patricia's have been sent to the front in the preceding today, and the last detachment, which is expected to bring the contingent up to the full strength of 300, will leave tonight in charge of Captain McKinnery. All mail for the men of the Patricia's should be addressed to the regiment at Ottawa, where the men will arrive on Monday and Tuesday.

sociation to bring the necessary skill and intelligence to develop this vast estate, and when this is accomplished Edmonton will be lending money instead of borrowing it. These figures cannot be successfully contradicted. The opportunity is waiting at our door and it only remains for us to take advantage of it.

Valuable Lesson
Rev. D. G. McQueen, who was warmly greeted, stated that he believed it was not just a matter of right, but of duty to the community to lend money. He said that the city of Edmonton was in a position to do so, and that it would be a great advantage to the city if it did so. He said that the city should be a lender of money, and that it should be a center of financial activity. He said that the city should be a place where money is lent, and that it should be a place where money is made. ATTENDANCE WOULD HAVE BEEN RECORD BUT FOR A SHOWER

Citizens' Day at Exhibition Sees Splendid Turn Out and Crowd of Nearly 20,000—But for Shower in Evening All Records Would Probably Have Been Broken—Many Interesting Features.

The prediction that Citizen's Day would see an attendance at the Exhibition of 20,000 was not quite realized owing to the shower of rain which fell early in the evening and kept many people away who would otherwise have taken in the fair in the evening. The attendance was, however, very gratifying and in the early part of the day it was all that could be desired.

Total paid admissions during the day numbered 17,338, while of these 15,994 entered the grounds before six o'clock. In the afternoon every seat on the grand stand was filled and the crowd overflowed on to the bleachers and along the fence of the enclosure. The majority of people attending in the afternoon stayed on the grounds and in the evening the grand stand was again well filled.

The following are the figures supplied by Manager Stark at the close of the day:

	1914	1913
Total on grounds	19,865	21,173
Total paid admissions	17,338	18,871
Grand stand paid admissions	10,505	9,015
White receipts	7,532.05	8,453.75

TURKEY IS MAKING LOVE TO GERMANY; PURCHASES SHIPS

Development Causes Interest in Political Circles and is Much Discussed.

HAS POSSIBILITY OF VERY GRAVE RESULTS

Action Unprecedented in Naval Warfare—Not Permissible in Law of Nations.

London, Aug. 14.—(11 a.m.)—A Reuter cable from Agence des Presses Paris says that advice received here from the Dardanelles declares that the German cruiser, Breslau, has been purchased by the Turkish government, the German flag has not been lowered on the German cruiser, Breslau, and Breslau, nor have their crews been landed since their arrival in Turkish waters.

Rome, (via Paris), Aug. 14.—This news that Turkey had purchased the German cruiser Breslau and the German cruiser Goeben reported here early last night. This new development in the war was discussed with intense interest in political circles where it was held to be fraught with the possibility of grave results.

It was stated in semi-official quarters that Turkey had purchased a strong weapon in the hands of Turkey if Constantinople abandoned its attitude of neutrality. The belief was expressed that the purchase precluded a new position on the part of Turkey and in fact the German and the Hungarian, which is especially important as bearing the interest of the Balkan states.

The Tribune says that the preparations made at Messina for a "mole death" by the German cruisers, before sailing from that port, made their will, left the public unprepared for the news.

Being the impossibility of escape from the Anglo-French fleet if they followed their original idea of making the transports moving French-Africa troops, the German cruisers sought refuge in the Aegean sea, where the complexity of Turkey, which is the country to make love to Germany, the two vessels contemplated how they might paralyze British commerce in the Mediterranean and interrupt traffic with India.

But, closely pursued, they had no alternative to taking refuge in the Dardanelles and disarming. Instead, Turkey purchased them. This is not considered permissible according to the law of nations. Never has a nation sold her own ships which already had been used against an enemy. During the Russo-Japanese conflict many Russian ships entered Chinese and American neutral ports but they were

disarmed and then awaited the end of the war.

London, Aug. 14.—A despatch to the Daily News from Rome says: "Turkey's purchase of the German cruisers, Breslau and Goeben, has made an unpleasant impression here. It probably will demand an explanation as to the future use of the ships and also warn Turkey that she will not allow the equilibrium of the lower Mediterranean to be threatened as Italy is determined to prevent competition."

GERMAN SOCIALIST LEADER IS SHOT FOR REFUSING TO FIGHT

London, Aug. 14.—The Daily Citizen, organ of the Labor party, says it was learned from frontier military authority that Dr. Karl Liebknecht, the German socialist leader, has been shot for refusing to do military service.

The Citizen says that the story was brought to London by a German refugee, who reported that Berlin, owing to the shortage of food, was in a virtual state of revolution.

Dr. Liebknecht was an officer of the reserves and was called to military service. He refused to accept a conscientious grounds, whereupon, according to the story, a military tribunal was sent to his residence. He was taken to the military barracks and shot in the morning. After a short trial he was convicted and shot by a platoon of infantrymen.

It is also reported that R. Luxemburg, another socialist leader, who declared that soldiers were maltreated in the army, has been shot.

CITIZENS' BAND CONCERT AT EMPRESS THEATRE ON SUNDAY NIGHT

FOR THE HOUSEKEEPER

Old velvetens should be saved for following clothes.

Beef immersed in sour milk will keep for months.

An orange or grape fruit that has been cut in halves and left can be kept from drying if fastened together with a skewer.

In broiling steak or chops the fire should be allowed to die down too quickly. When this happens sprinkle a little emulsified sugar over the coals. This intensifies the heat and the smoke from the sugar imparts a delicious flavor to the meat.

When cleaning white shoes the first thing to do is to clean off dust, then by means of a brush and soap dip in water and a fine white soap. Let the shoes dry before applying any polish. A wonderful method of scrubbing is all that is necessary.

A good method of keeping butter from turning rancid in hot weather is to put it in brine. Take a jar and put water in, then add salt until you have a brine strong enough to float a potato. Put the butter in the jar, cover and keep in a cool place.

Pack glass and china in hay that is strictly damp. This will prevent the articles from slipping about.

DAINTY KITTY MACKAY CAPTIVATES HEARTS OF HER EMPIRE AUDIENCE

Kitty Mackay made her debut in Edmonton at the Empress theatre last evening, and a more lovely, winsome, dainty little woman it would be impossible to get for the formal opening of this playhouse for the fall season. New York critics praised this little Scotch lassie up to the skies, and never a word that has been sung in her favor is undeserved. The play is refreshing and wholesome. There are lots of humorous and comic situations to carry out the feeble attempt at a plot. What is more, the cast does justice to Catherine Mackay's great success, and that is just about as great praise as could be handed out to the clever artists who will be seen in Edmonton for three more performances.

Introducing an unsophisticated Scotch girl into a fashionable London home was in the ordinary course of events, but rather a risky undertaking, but this is what the author does with Kitty Mackay. Her introduction and what is more she makes her fit there. Her quick smart manner, true to life, and her quaint expressions form a contrast that is at once amusing and enjoyable to the rigid politeness of Lord Inglehart's household. There she makes herself as much a favorite as the audience.

There is lots of scope in the play for a good actress, and not one chance does Marjorie Murray, who takes the title role, miss. She is just the pretty little lady for the part. Her grace, grace and lots of ability. How could the soldier son of Lord Inglehart help to fall in love with her? She has captured the hearts of those present before she had been on the stage five minutes.

Sandy, the butler, is a real find. He is Scotch to the backbone and had a predilection for Scotch whisky until his illness when he makes up his mind to reform. It is hard to judge whether he is funnier before or after his reformation. He is very fond of whisky, but he has made up his mind to reform, so he thinks it is better to repeat in time. His repentence is made the funnier by the manner in which he repeats it, for by the way is an expert even for a Scotchman at that. Jas. Finlayson, who takes the part of Lord Inglehart, is a cleverly clever and he keeps the audience in great humor with his excellent acting.

While the two characters mentioned were no doubt the shining lights, it would be grossly unfair not to mention the other participants. Each one took his or her part in a very masterly way and brought the most out of the characters.

Summing up the performance, it is not too much to say that it is one of the most enjoyable that has ever been seen locally. There is no plot to worry, and note is necessary, for it is the life of the play, and it is now, simply flows through the play.

Although the attendance could not be so small, still the production means the number present that the excellence of the production merited. This will do no discredit to the remaining performances, for no audience is there seen in Edmonton entertainment of such a caliber, and theatre-goers cannot afford to miss it.

BREEZY COMEDY TO HEADLINE PANTAGES OFFERING NEXT WEEK

Possibly the most comical sketch that has ever come over the Pantages circuit begins a week's run next Monday at the local playhouse. It is a breezy comedy farce entitled "Oh, Hello!" Every line contains a laugh and the plot is so well contrived that it will give Edmonton theatre goers. It is presented by William Schilling and company and as this sketch is a return engagement over the Pantages circuit, no better recommendation need be made.

The sketch is a picture of a man in the dramatic sketch of a singularly clever entitled "Oh, Hello!" who has a wonderful method of scrubbing is all that is necessary.

LITTLE WONDER THAT "THE EASIEST WAY" WAS BIG NEW YORK SUCCESS

Last night again proved the popularity of the Lyceum players in their strong production of "The Easiest Way" to a capacity house. With the addition of several new members to the already well balanced cast, this company is now one of the strongest stock companies in western Canada. Edward Tilden, as John Madison, offers a bit of the best acting of its type seen here, and handles most difficult situations in a clever and finished manner.

It can well be understood how this production held sway in New York for such a record period by its strong lines and many tense situations. The author has been long associated with the drama through his numerous offerings, but it has been for "The Easiest Way" to win him the greatest favor, and to think nothing of it, you don't you like to him, by fifty to one.

That good man who was going to lead you to a good life in a good way, out even a broad head and a good heart, and with him the greatest favor, and to think nothing of it, you don't you like to him, by fifty to one.

FRANK PICHES WONDERFUL
BALL, BUT ESKIMOS LOSE THE
BEST GAME OF THE SEASON

Score 1 to 0 in Eleven Innings Pitchers' Battle—Frank Allows But One Hit First Ten Innings—Wheeler's Decision on Crum at Third Costly Mistake—Concannon Gives Only Five Bases.

Thursday was Gitzens' Day at the exhibition and it is said a record crowd was in attendance, but those who missed seeing the opening baseball game of the Moose Jaw-Edmonton series, missed the best game of the season, on 11 innings. The Eskimos lost to the Red Sox, 1 to 0. It was a beautiful contest all the way, with hits as scarce as hen's teeth, and both teams playing air-tight ball. Only one run was scored, and that by the visitors in the eleventh inning, and the game was played in rapid time. Score: 1 to 0.

Best Game of Season
About 500 fans were present, and although they were all satisfied they had seen the greatest game of the year, they were also of one mind as to why the Eskimos were not at the long end of the score. For ten innings Frank looked like a big league, and allowed but one hit, a single to right. In the same space of time the Eskimos had collected five safeties off Concannon, who also pitched a lovely game. Then came the eleventh, and the Eskimos had all the luck and rapped out two safeties, the first a single to right to Wally, with one down, and the second a three-bagger to left by O'Day, scoring Wally with the winning, and only run of the game. O'Day made the third sack on his hit, but over-slid the bag, and Augustus ran on him like a hawk. For the second out, Augustus the third man out, filed to Brooks.

Wheeler's Serious Mistake
To some, it may seem like the everlasting kick of the lower, but to all who were present at the game, there was no mistake that first class chances for the Eskimos to score, were tipped in the bag by Umpire Wheeler. The fact, one decision was so bad, it was awful. Not that it was an error in judgment, but merely a very bad mistake, and a costly one. The mistake of the umpire referred to was in the sixth inning. With both teams fighting desperately to score the one run that would win the game, Crum picked out a nice one and hit for two runs to right. Williams next up, laid one down to the pitcher who threw to catch Crum at third. Williams was safe at first on the fielder's choice. In his decision at third on Crum, umpire Wheeler made him out before the play was actually finished, that is, before the ball was really in the third baseman's glove, or before Crum was to the sack. On the play, Crum was safe without a doubt, and much outburst of feeling followed. The facts of the case are (as admitted afterwards by Wheeler himself) that he (Wheeler) thought there was a man on second, and therefore, forcing the play at third was a forced play. This was an error on Mr. Wheeler's part, for there was nobody on second, but Williams was on first. The decision had no sooner been made than Wheeler admitted his mistake, and later remarked at the press stand, "I didn't even see the play. I thought it was a double play. Of course, it was too late to make amends, and the Eskimos took their medicine remarkably well, and the whole affair was unfortunate, but as sure as Jonah swallowed the whale, it beat the Eskimos out of a game."

Another decision of Wheeler's at first when Povey as the runner, looked very close and the benefit of the doubt might have been given to the Eskimos.

Frank's Grand Pitching
Crum's two-bagger was the only Eskimos hit for extra bases, and O'Day three-bagger the same for the visitors, and at any rate the batting was not the feature of the contest, but the very excellent pitching of Walter Crum. Batters big and small, heavy and light, good, bad, and indifferent, all looked alike to Walter. He had them swinging at air-holes almost at will. Altogether, he had five strike-outs to his credit, and walked only one man. Such good hitters as Milian and White man whiffed the air like school boys, and Frank had perfect control. There is no doubt at all that the Eskimos' batting in this series at Diamond park, are about the two best aggregations in the league at the present time. The Eskimos look like a first division team and are in the game all the time. They are drawing near the 500 mark, and once arrived there, they will then follow a merry scramble for the three first division positions in the league. A study of the box score will tell the story of the finest game seen at Diamond park this season.

Evening Game Called
The name two teams gathered for a second contest at 6 p.m., but owing to a heavy fall of rain, the game was called at the end of the third inning with the score standing 1 to 0. The game of the Moose Jaw team, "Half an hour after the game was called and the crowd had retreated their footprints on the hill, the sun shone out brightly and made one feel sorry that it had become necessary to call the game, for as a result two games will be played today, the first at 10:30 and the second at 6 p.m., but not until the game at 10:30 and the second at 6 p.m. is quite impracticable. Trot—Mischieff Won
Free-for-all.

Moose Jaw, Aug. 14—Yesterday's races at the exhibition were very hotly contested and were witnessed by crowded stands and galleries. There was a 2:26 pace and free-for-all comprised the program. In the first race, Red Direct II, well driven by Russ McGirr, won out in straight heats while the free-for-all went to a Winnipeg horse, Mischieff, owned by Fred Pickett. Clara Paul held the race in hand when she took the second and third heats but would not stay with her task with the result that Mischieff went in and landed first money by capturing the fourth and fifth heats. The times were good, especially those in the free-for-all. In this race, Knight Onward set the pace by winning the first heat but seemed to go lame and was dropped in the fourth account of bad behavior.

Chief Meyers finds himself in a peculiar position whenever he is hit by a pitched ball. The ethics of the Indian tribes throughout the world is never to show signs of pain. Yet, if the chief followed this custom he would seldom get his base after being hit.

LONG SHOTS WON TWO RUNNING
RACES ON THURSDAY'S PROGRAMClosterman Tickets Paid \$121.70 on 52 Tickets—Col. Warwick
Sprung Surprise by Beating Luke Van Zandt
and Paid 5 to 1 Returns.

Another good day's racing was provided at the exhibition on citizens' day, and in all but two of the events, the favorites won. The 2:14 trotting race for the \$3500 purse was won by Hal Boy in straight heats, as was the 2:20 trot by Gratton Boy. In the blue ribbon event, Hal Boy had it all his own way, taking all three heats. His best time was 2:13 1/2. The machines paid little on the winner, paying at the rate of 1 to 4 in every heat. Best money was paid by Hammato, who for second in the first heat, the machines paying 139 for a 52 ticket and \$5.00 for 42 show.

Five starters in the 2:20 trot, and Gratton Boy was a strong favorite and won his three heats in good times, the fastest being 2:15 1/2. Seneca Boy took second place in all three heats, but the machines paid little on either horse. Third money was won by Len McDonald.

The 6 1/4 furlongs was all Ester L. with McCown up. The horse was a big favorite on the machines and made a one-horse race out of it. May Showers with Ayres up, took second place, and 175 on Squirrel showed heat, but Ester L. ticket paid small returns.

There was a surprise in the fourth race of the meet, when Luke Van Zandt, who on Wednesday had won his race easily, was off to a bad start and the winner turned up in Col. Warwick with McCown up. The old mare got away to a flying start and managed to hold his lead till after the wire. Luke Van Zandt made a desperate effort to remain long ground after his bad start, and in the stretch pulled up close to the winner. Perform took third money, with Cyclone, Marie Gaur and Lovely Joe among the also rans. Straight tickets on Col. Warwick paid \$10.75, with \$4.30 for place and \$3 for show. Luke Van Zandt paid \$2.60 for place and show. Perform paid \$4.50 on show postboard.

The rich money harvest of the day and the best so far in running horses during the meet was the last race, the 2 1/4 furlongs running. The winner turned up in Closterman, who beat the two favorites Laura Clay and Irish Boy, and paid \$121.35, \$12.35 and \$12.35. Tripping finished second, and paid \$50 for place and \$4.40 for show. Closterman ran third and paid \$4 for show.

There are five good races on today's bill at the exhibition meet, two for the harness horses and three running events. Six entries in the 2 1/4 mile trot should make this race an interesting one, especially when there are several of these that are new horses to the Edmonton track. The 2:20 trot has a class of starters, among them Chief, any of who will be able to take a heat.

The 7 furlongs running event should be a hammer, and has four fast ones entered. Danfield, Gray's Favorite, Jack Adams and Joe Miller. Another long running race is on the board, one mile and 70 yards. This event is almost sure to go to Marcus, as he is unbeatable at the long run. In the 4 furlongs dash are several classy entries. Ester L. looks good for first money, and Roy V. a place.

The entries are as follows:

This is the time of year when, for the sake of a green hair, many a man claims himself three hours a day to forty feet of horse.

PLANS UNDER WAY FOR PERMANENT FARM EXHIBITION

Result of Co-operative Effort of Edmonton and Surrounding Towns.

BROADER DEVELOPMENT OF NATURAL RESOURCES
Will Furnish Complete, Accurate Information to Prospective Settlers.

For a broader exploitation of the natural resources of the province, and for the purpose of offering intelligent information to prospective settlers, the Edmonton and surrounding towns are co-operating in the maintenance of a permanent agricultural exhibition.

The committee in charge of the project consists of W. J. Lagrath, president of the Edmonton Industrial association; J. P. Fowler of Westsask; S. G. Crozier of Regina; Thomas H. McMillan of Fort Saskatchewan; W. C. McCornick of Mirror, and J. W. Morrison of Vermilion. The committee met all of Thursday afternoon in considering locations for the exhibit, and voted to definite lands has been decided upon, it will be in the vicinity of First street and Jasper avenue, adjacent to the city hall.

According to the plans which have been decided upon each district will furnish and install its own exhibit, the expense of maintaining the completed exhibition will be borne equally by the localities represented. The exhibition will be in charge of a superintendent yet to be selected, but who will be familiar with the section of Alberta in which he will be located.

An information bureau, for the benefit of prospective settlers will be maintained, keeping constantly on file a list of lands in the various portions of the province, representing including lands open for homesteading and for sale, with complete descriptions of each quarter section.

The exhibits will be kept up to date and will show the various resources of the different sections of the province, and the possibilities in an agricultural and horticultural way.

The boards of trade of the cities and towns in the immediate vicinity of Edmonton are enthusiastic over the proposition to have a permanent exhibition which will not only be the most complete, but also the most up-to-date, bringing a large number of farmers to this section of Alberta for the more extensive development of its wonderful resources.
